## BABY LEAF

# KARINA F1 PVP

[CRX 267]\*

**Growing cycle:** all year

**Plant habit:** erect

**Leaf:** many leaves very curled, dark green and thick

**Note:** fast growing, excellent yields, great aroma, tolerant to cold conditions, high growth ratio and high bolting tolerance.

## KRISTINA F1 PVP

[CRX 265]\*

**Growing cycle:** late spring, summer

**Plant habit:** erect

**Leaf:** dark green colour, thick and deep curled

**Note:** high bolting tolerance, indicated for summer season, high yields, suitable to grow in the warmer cycles of the year.

## CORASTAR

**Growing cycle:** all year

**Plant habit:** erect

**Leaf:** dark and very curled from the first cut

**Note:** uniform leaves, rustic and very thick.

## MAVERICK

[CRX 45009]\*

**Typology:** bright green baby lettuce

**Cycle:** all year

**Leaf:** thick, curled, small cut, very attractive colour

**Resistance:** HR BI: 16-37 EU; IR Fol: 1,4

**Note:** very fast growing with very good flexibility of harvests in different seasons, excellent post harvest shelf life.

## CRX 45011

**Typology:** extra dark green baby lettuce

**Cycle:** spring, summer, autumn

**Leaf:** very thick, curled, small cut, amazing colour

**Resistance:** HR BI: 16-33 EU;  
IR Fol: 1

**Note:** fast growing, high yields.

## CRX 48355

**Typology:** dark green

**Cycle:** spring, summer, autumn

**Leaf:** very thick, bright green colour, small cut, very high yields

**Resistance:** HR BI: 16-36 EU

**Note:** fast growing.

## CRX 47701

**Typology:** very dark red baby lettuce

**Cycle:** autumn, winter

**Leaf:** thick, curled, small cut, very attractive colour

**Resistance:** HR BI: 16-33 EU; IR Fol: 1

**Note:** very intense colour.

## CRX 47708

**Typology:** extra dark red baby lettuce

**Cycle:** all year

**Leaf:** very thick, curled, small cut, amazing color

**Resistance:** HR BI: 16-37 EU;  
IR Fol:1

**Note:** fast growing, the whole leaf blade is extra dark red coloured. Perfect for baby leaves salad mix.

## TINTORETTO

[CRX 403]\*

Red bull's blood triple red with intense shiny red colour. The leaf is thick with round shape. It performs well in summer cultivations.

## CRX 5204

Red bull's blood with very dark red leaves (triple red). Thick and pointed leaf. Suggested for baby leaf production.

CRX 5204 is suitable for all year round productions. Its heat tolerance holds its red colour in high temperatures during summer.

## RED CHARD RED

## RUBARB

High quality selection of Red chard, very uniform plants. Very attractive contrast between the dark red stem and veins with the dark green leaf. Highly used for salad mix baby leaf production and for fresh market also. Plant is vigorous and the variety is possible to grow all year round.
